Service

Design

With trusted competence in international exhibitions in over 40 countries, our team of experienced in-house designers and project managers will work with you to create solutions tailored to the concepts and needs of each project. Our comprehensive design services include 3D booth renderings, construction drawings, and furniture design, as well as conventional graphics such as posters and brochures.

Operations
and Support

With our extensive experience both domestic and abroad, our clients have time and time again relied on us for their projects. From initial consultation to planning, production, and field management, our multilingual staff is ready to provide you with peace of mind support, every step of the way. We offer full on-site support during the event, so that you can focus on your business.

Production
and Construction

Our commitment is to provide our clients with the highest quality of service. Utilizing our vast network, we are able to execute and deliver the same quality of service anywhere in the world. We supervise all stages of production, installation, and dismantling, for maximum efficiency and quality assurance.

Service Flow

Initial Consultation

"I'm considering exhibiting overseas, but I don't know where to start."

"I have some experience with exhibitions, but I'd like help with the preparations."

"I would like to maintain a unified brand image across all our exhibitions, but don't know how."

At Space Display, we understand that providing first-class customer service through personal consultations is the key to achieving outstanding results. Reach out to us at any of our contact options below and a member of our team will contact you for a complimentary consultation. Regardless of size, industry, or location, our team is ready to assist you.

Plan & Estimation Presentation

Working with our in-house designers, your dedicated project manager will create a tailored design proposal and estimation for you, based on any requests, concepts, and budgets discussed. From there, we will work with you to further refine the design and details of the project.

* To better serve you, please provide us with information such as the event name, event dates, venue/location, exhibition space size, etc. at the initial consultation stage.

Preparation & Confirmation

Once the project has been confirmed, we'll handle all the preparations: from the construction drawings, graphic production and furniture rentals, to applications and communication with the venue, event organizer, and suppliers.

* We offer storage services in Europe, the United States, and Asia for full exhibition stands and parts (for reuse next time).

* Please note that we do not provide proxy services for the import/export of your exhibits at overseas exhibitions.

Set-up Period

Your dedicated project manager will be on-site to coordinate all aspects of the set-up. You will receive daily reports on the progress of the set-up so there are never any surprises or uncertainties. On the final day of the set-up our crews will be on standby to assist with the smooth handover of the stand and help you with setting up for the show.

On-site Support

Our goal is to become an extension of your team and manage the stand, so that you can focus on more important things. From daily cleaning and equipment checks to troubleshooting, your dedicated project manager is always available during the event to help you make it a successful one.
